

ICRM 2014

6th International Chemometrics Research Meeting

Chemometrics Society

First Announcement

ICRM 2014

The Dutch Chemometrics Society invites you to the
6th International Chemometrics Research Meeting

14-18 September 2014

The meeting is organized under the auspices of the
Royal Netherlands Chemical Society

Following successful earlier meetings in 1994, 1998, 2002, 2006 and 2011 the format of the conference will be such that lectures reflect the current state-of-the-art in chemometrics and will be a starting point for extended discussions and exchanges of views

Scientific Program

Like previous ICRM meetings, the scientific program consists of **invited lectures** of 50 minutes, and ample time for discussions. These discussions will be introduced by a discussant. At this 6th ICRM also time has been reserved for **contributed lectures**. We invite you to submit abstracts for oral contributions, as well as for the **two poster sessions**. Abstracts can be submitted through the conference website. Submission deadline is May 1st 2014. Note that only submissions from registered attendees are taken into the review process.

Conference topics

The conference will cover the most state-of-the-art topics in the field of Chemometrics, including:

- Multivariate data analysis, calibration and classification,
- Multi-block and multi-way methods,
- Process Chemometrics,
- X-omics related Chemometrics

Keynote Lecturers

Several prominent researchers in the field of chemometrics and statistics have committed to provide a keynote lecture at the conference (for more information see the conference website):

- Alan Gelfand
- John H. Kalivas
- Olav M. Kvalheim
- Iven van Mechelen
- Mia Hubert
- Dennis R. Helsel
- Neil B. Gallagher
