

Application form for ECR Mobility Grant from the *Metabolomics Society*

Please fill out ALL sections and return to the *Secretary of the Metabolomics Society*.

About the Scholar In these sections you are to provide details about the person (Scholar) who would undertake the ECR Mobility for study.	
Name	
Home Institution address	
Email address	
Nationality ¹	
Gender ¹	
Career Stage ²	
Metabolomics Society Membership number	
Name of Mentor ³	
Email address of Mentor	
Met Soc membership number	

A Letter of Support from your Mentor in your Home Institution must be included. This includes confirmation that they agree to you spending this time in another laboratory and how this will enrich your metabolomics expertise. This letter must be signed by the Mentor listed above and be provided on headed paper (electronic letters are expected).

Information about Host Institution Use these sections to provide details of the Host Institute that you will visit, as well as details of the primary supervisor.	
Name	
Address	
Name of Supervisor	
Email of Supervisor	
Web address of Supervisor ⁴	
Supervisor Publication record ⁴	

A Letter of Support from your proposed Host Institution must be included. This includes details on the host commitment to train the ECR fellow, access to instrumentation and local expertise to help the ECR fellow, as well as guarantee of laboratory consumables being covered by the host. This letter should also provide brief details of Health and Safety arrangements. This letter must be signed by the Supervisor listed above and be provided on headed paper (electronic letters are expected).

¹ This we use to capture the diversity and global impact of the ECR study leave. If you do not want to provide this information, please leave these sections blank.

² This should be provided as either year of current PhD study or the number of years after the PhD. Please include any career breaks (e.g., for childcare) if these are relevant. This we used to assess eligibility of the ECR applying for funding – if in doubt please contact the *Secretary of the Metabolomics Society*.

³ This Mentor should be based in the Home Institution and be your current supervisor or advisor for your PhD, or principal investigator or boss for Research Associates or Technical Experts.

⁴ This can be within the URL for the Supervisor, Google Scholar, or other free to access website.

ECR Mobility Grant Work Programme	
The text boxes will expand as you type. Fill in all sections.	
Title	
What are the objectives of the Work Programme? (400 words max.)	
Please provide a work plan for the Mobility Grant. (400 words max.) Include information Risk & Contingency, how the time will be spent each week, as well as a management Gantt Chart (or similar) for the duration of the Mobility Grant.	
Research work of the Scholar, relevant to the work programme (400 words max.) Describe your current skills in metabolomics. Detail any publications or research outputs – include DOIs where relevant.	
Please describe how the skills learnt during the scholarship will be applied in the Scholar's Home Institution. (200 words max.)	
Please describe why the Host Institute has been chosen for this scholarship. What particular expertise or equipment will the Host Institute provide? (200 words max.)	

Costs	
Provide details of the cost of the Mobility Grant. These are to be provided in US \$. The total requested from <i>Metabolomics Society</i> cannot be more than \$2,500.	
Return travel costs to Host Institution	
Travel & subsistence costs while in the Host Institution	
Accommodation costs while in the Host Institution	
Other costs: e.g., visas, travel insurance, etc. (please specify) For ...	
Total costs of ECR Mobility Grant	

If the mobility grant is in excess of \$2,500, you must provide evidence of where any additional funding is coming from. This can be in the Letter of Support from your Mentor in your Home Institution or the Supervisor in your Host Institution.
